

PROCUREMENT POLICY

The Company is committed to an incident/illness-free workplace and continuous commitment towards doing no harm to:

- Ourselves as humans
- Those involved or affected by our operations
- The Environment in which we work
- The assets involved or affected by our operations
- Our relations with Clients, Subcontractors, Stakeholders, Customers and those affected by our operations.

As a part of these commitments, the Company shall adhere to procedures and controls that ensures the procurement of safe, environmentally friendly supplies and equipment to support energy efficient vessel operations. While maintaining a focus on cost efficiency, the Company's procurement practices will not jeopardize the commitment to safe, environmentally friendly and high quality supplies and equipment.

The Company endeavors to conduct business with vendors and suppliers who share these values and a commitment to utilizing safe, environmentally friendly supplies and equipment. The Company will evaluate vendors and suppliers on a regular basis to ensure compliance with this policy

James William Noe

CEO and Executive Director
